Dear Mr Head,

TYPE REGISTRATION PROCEDURE - Type Registration Confirmed

Product:- Six inch double contact watertight cable oil pressure gauge class 2A to Budenburg Gauge Company Limited drawing R/3152, manufactured at the Budenburg Gauge Company Limited Altrincham factory.

The Self Certification Statement has now been reviewed. On the basis that you have confirmed that the product complies with the specific requirements of the relevant specifications I confirm that this product will be added to the Type Registration List as Category A (Full) as described in NGTS 1 Issue 4.

The Type Registration Number assigned to this product is **TRL 3.5.9/0077/A**.

To retain this National Grid Type Registration you should be aware of the requirements and conditions specified in NGTS 1 Issue 4 and in particular the following clause:

Review of Type Registration Status to Retain Continued Type Registration of a Product.

Where the design of a product has been Type Registered by National Grid it is the responsibility of the Supplier (or Other User) to notify National Grid of any design changes, method or place of manufacture. National Grid will assess the need for re-registration of the product. Where a product fails in service due to a design inadequacy or generic manufacturing defect, National Grid may withdraw Type Registration and will not procure the product until Type Registration is re-instated.
